WORK EXPERIENCE

WEB DEVELOPER

July 2023 - Current

Wesleyan University, Middletown, CT

- Led UI and front-end improvements across the **Social Psychology Network (SPN) and its partner sites**, modernizing **high-traffic legacy platforms** while preserving decades of academic content used by **millions of users globally**.
- Refactored HTML, CSS, JavaScript, and PHP templates to enhance performance, maintainability, and accessibility compliance.
- Created **wireframes, prototypes, and high-fidelity mockups** using established design standards, developing reusable design systems and updating content to ensure visual consistency.
- Designed and implemented user interfaces for **research-driven and socially sensitive topics**, applying thoughtful review processes to ensure clarity, accuracy, and respectful representation.
- Worked across CMS-driven architectures and database-backed systems, supporting content management, backend integrations, and data-driven functionality.
- Collaborated closely with the Executive Director, developers, and student interns through weekly feedback sessions and iterative design reviews to continuously refine and improve user experiences.
- Organized, documented, and standardized front-end and backend codebases to support long-term maintainability.

FRONT-END DESIGN & DEVELOPER

Oct 2022 – Jan 2023

SARAS Analytics & Consulting, Remote

- Led the end-to-end redesign of the SIMBCM web application, transforming a content-heavy learning platform into a more engaging, interactive experience for simulation-based training.
- Contributed to a **90% increase in reported user satisfaction**, driven by clearer navigation, improved readability, and a more immersive user experience.
- Conducted user **research and competitive analysis to uncover usability gaps**, navigation friction, and engagement drop-offs, translating findings into clear design opportunities.
- Designed **user flows, wireframes, and interactive prototypes** in Figma, establishing a cohesive visual language and interface system.
- Partnered with developer to implement UI designs and front-end features using HTML, CSS, PHP, and MySQL, ensuring consistency with design systems.
- Refined designs through structured feedback cycles and ensured smooth integration into final deliverables.

SKILLS

Design:	UX Strategy, Interaction Design, User Research, Wireframing, Prototyping, Information Architecture, Accessibility (WCAG), Usability Testing, Design Systems, Responsive Web Design, Brand Identity, User Personas
Development:	HTML, CSS, JavaScript, React, PHP, MySQL, WordPress, SASS, Bootstrap, Git, GitHub, REST APIs, SEO Fundamentals
Tools:	Figma, Adobe Creative Suite, Wix Studio, Framer, Squarespace, VS Code, Notion, Trello
AI & Other:	Agile Methodology, Data-Driven Design, ChatGPT, GitHub Copilot, Claude

CERTIFICATIONS

HFI Certified Usability Analyst (CUA)	Jul 2023
Google UX Design Certificate	Jan 2023
PMI Certified Associate in Project Management (CAPM)	Jul 2018

EDUCATION

Master of Science in Computer Science (Interactive Computing)	May 2023
The University of Texas at Dallas, Richardson, TX	
Bachelor of Science in Computer Science	Dec 2021
The University of Texas at Dallas, Richardson, TX
